**ONE CREDIT UNION PLACE**  
**HARRISBURG, PA 17110-2993** 717-237-2200; fax: 717-237-2239

DATE:

Septem~)er 21, 2000

FILE CODE:

450-11

**Purpose:** To add the web site for the following document as a Pennsylvania Technical Guide reference:

Rosen, B.H., 2000, Waterborne Pathogens in Agricultural Watersheds  
USDA-Natural Resources Conservation Service, Watershed Science Institute, School of Natural Resources, University of Vermont, Burlington, VT. Available on the Internet at <http://WWW.eolo.washington.edu/~nrcs-wsi/products.html>

**Background:**

The reference, which is available on the World Wide Web, provides information on potential links between agriculture and

waterborne pathogens. Pathogen information includes:

Types (i.e., Cryptosporidium, Giardia, E.coli, Campylobacter, Salmonella, viruses, Pfiestoria, parasitic worms); indicators in water; sources and modes of transmission; survival; measures to reduce transport to water resources; and monitoring and evaluation.

The reference also contains a glossary and an extensive reference list.

**Filing Instructions:** File with the Pennsylvania Technical Guide, Section I as Reference 121. Add the web site to the Numerical List of References and to applicable Water Resources Subject Lists.
